DHIVYAKANTH P

Aspiring AI Full-Stack Developer

8072181949 | dhivyakanth20@gmail.com | LinkedIn | GitHub | LeetCode
Tiruchengode, Namakkal

Summary

I'm a passionate and driven AI & ML student with a solid programming foundation in Java and C, and hands-on experience in IoT and frontend & backend development. Focused on building intelligent, data-driven systems and continuously learning to create impactful AI solutions.

Experience

AIML Intern 04/2025 – 07/2025
Hertzworkz Private Limited (HERTZWORKZ), Namakkal

- Built real-time computer vision applications using MediaPipe and OpenCV
- Trained chatbots and fine-tuned LLMs for domain-specific tasks using RAG
- Gained hands-on experience in model deployment, data handling, and AI system development

Google for Developers – AIML Virtual Internship 04/2025 – 06/2025
Online

- Learned TensorFlow, image classification, and object detection (SSD, Faster R-CNN)
- Worked on CNN feature extraction and optimization techniques
- Deployed real-world computer vision applications

Full stack developer Intern 07/2025 – 10/2025
SiDRA Hub (Inaiyam Innovations), Tiruchengode

Built a smart agricultural advisory system with real-time weather automation (React.js, Node.js)
• Automated location-based weather alerts and crop advisories (n8n, APIs)
• Managed scalable farmer data and reporting systems (Firebase, MySQL)

Education

K.S. Rangasamy College of Technology Tiruchengode
B.E. in Computer Science and Engineering
CGPA: 9.0 / 10 09/2024 – 09/2027

K.S.R Matric Higher Secondary School Tiruchengode
Higher Secondary Education
Percentage: 93% 09/2021 – 04/2024

Skills

Programming Languages: Java, Python, C, JavaScript, SQL
Web Technologies: HTML, CSS, React JS, Node.js, Express.js
AI/ML: Machine Learning, Computer Vision, TensorFlow, MediaPipe
Tools: Power BI, JDBC, GitHub, REST APIs

Projects

River AI

IoT & AI Water Quality Monitoring System

An IoT solution for real-time environmental assessment in water quality

- Designed and developed an IoT-based water quality monitoring system using pH, turbidity, temperature, TDS, and DO sensors
- Integrated GPS and GSM modules for real-time alerts and geolocation tracking
- Implemented data acquisition and processing using Raspberry Pi 5
- Enabled cloud-based monitoring and analytics for industrial compliance

AI Sales Chatbot

- Built a full-stack chatbot using React, Flask, and Gemini API
- Integrated real-time sales data for conversational insights
- Designed responsive UI and RESTful APIs for smooth frontend-backend interaction

Sign Language Chatbot

- Developed real-time ISL recognition using MediaPipe and OpenCV
- Trained CNN models with TensorFlow for gesture classification
- Integrated NLP and text-to-speech for voice-based responses

Certifications

- Infosys Java Programming Certification
- Oracle Cloud Infrastructure AI Foundation Associate
- Oracle Cloud DevOps Professional
- Oracle Cloud Generative AI Professional

Achievements

- Co-author of the book ***Hope's Tapestry***
- Regular coding practice on LeetCode platform
- Selected for Smart India Hackathon in college level

Languages

Tamil (Native) | Hindi (Intermediate) | English (Proficient)
